Dear Mr. Gelman:

I have given careful consideration to the list of questions you furnished to Colonel Grogan in your letter of 15 August 1960, and for your ease in handling this material I am attaching a copy of your list of questions, each followed by my response thereto.

You will find that, for certain obvious reasons, I have not been able to be fully responsive to some of the queries you have raised but I hope, nevertheless, that you will find my comments helpful.

Attachment to Letter to Mr. David Gelman of the NEW YORK POST

1. QUESTION: Can you define the role of the CIA: a) in general b) in the formulation of American foreign policy c) as to its separate functions of collecting and evaluating intelligence?

ANSWER: a. Attached is a copy of the National Security Act of 1947, as amended, which established the Central Intelligence Agency. This reflects the jurisdiction, responsibilities and limitations placed upon the Agency.

b. The CIA does not formulate United States foreign policy.

c. The CIA coordinates, correlates and evaluates information received from all sources within the U. S. Government intelligence community and from overt publications and media of various kinds, and disseminates to appropriate United States Government officials diverse types of reports incorporating such information.

2. QUESTION: Are you satisfied with its performance?

ANSWER: I think the CIA and the entire intelligence community have made great progress since the establishment of the Agency under the terms of the National Security Act of 1947. However, one should never be entirely satisfied with current performance and we are constantly striving to better that performance.

3. QUESTION: Do you feel it contains any weaknesses, statutory or otherwise?

ANSWER: I believe the response to Question 2 above answers this question. I am generally well-satisfied with the Agency's statutory authorities.

4. QUESTION: In the light of recent indications that while our intelligence may be effective, there have been repeated failures in the dissemination and application of intelligence, do you feel any changes are necessary in the organization of the intelligence community or of our policy making machinery.

ANSWER: As I pointed out in reply to Question 2, we are all constantly striving to better the intelligence performance per se in any possible. The CIA has nothing to do with the organization of U. S. "policy making machinery."

5. QUESTION: Are there any changes you would like to see come about in the organization and operation of the CIA itself?

ANSWER: Again, please see my response to Question 2, *supra*. When I believe that changes in the organization or operations of the CIA will better the over-all U. S. intelligence effort, I make such changes.

6. QUESTION: Is it your feeling that sufficient weight is being placed on CIA by the various departments and agencies concerned?

ANSWER: We make every effort to present our reports to appropriate U. S. officials in concise, readable form with the more important developments highlighted for the benefit of our policy-making consumers. It is my belief that these reports are read and given careful consideration by our customers.

7. QUESTION: While the CIA has never publicly acknowledged any connection with the U-2 incident, the hearings of the Senate Foreign Relations Committee, a substantial portion of which was made public, adduced, to say the least, a connection. In view of this can you be prevailed upon to comment with respect to: a) the adequacy of the CIA cover story, b) your opinion, before and after the fact, on the wisdom of continuing the U-2 flights as the Summit Conference approached?

ANSWER: The Agency has never made any public statement regarding the U-2 flights.

8. QUESTION: What is your view and attitude on the repeated proposals for a Congressional watchdog committee on CIA?

ANSWER: This is purely and simply a matter for the Congress to decide.

9. QUESTION: Estimates of CIA's annual budget have ranged from 300 million dollars to a billion; estimates of CIA personnel have ranged from 8,000 to an all inclusive figure of 30,000. You have called these figures grossly exaggerated. Can you offer approximate ~~revised~~ figures, or can you suggest within what range these figures properly fall?

ANSWER: No information is made public concerning the size of CIA's budget and the number of its personnel.

10. QUESTION: In the recent history of intelligence, critics have called it a "dirty business," "abhorrent" to the American people because of its suggestion of treachery and intrigue. Compton Mackenzie called intelligence operatives "parasites" whose existence depends on perpetuating the conditions in which intelligence is necessary. Its defenders, on the other hand, have employed the argument that we must maintain an intelligence system if for no other reason than that everyone else is doing it. What are your own feelings about the need for an intelligence system, its morality or its lack of morality?

ANSWER: I would not be the Director of Central Intelligence if I did not believe there was an urgent need for the United States to maintain the most effective possible intelligence service. It has been my personal observation that, in general, the caliber and morality of CIA personnel is very high indeed.

11. QUESTION: Is it your understanding that Pres. Eisenhower reads the daily intelligence summary as his first order of business each day, and has there been any change in the form and method of these summaries within recent years?

ANSWER: I could not and would not be able to comment on what the President does or does not read at any given time of the day or night. As I have pointed out several times previously, we are constantly striving to better our work in all respects and this may include from time to time revisions in format or method of presentation of various reports.

12. QUESTION: How does our intelligence compare with the system in operation in other countries, notably Britain and the USSR?

ANSWER: It is my hope and belief that we have the best intelligence service in the world. Certainly this is what we are all striving for.

13. QUESTION: When Premier Khrushchev twitted you about pooling American and Russian intelligence so you wouldn't have to pay twice for the same job, was there any substance of truth in his taunt?

ANSWER: There was little, if any, substance to Khrushchev's taunt.

14. QUESTION: What was the actual basis for the organization of the CIA--the Donovan Plan, the Eberstadt report, or yet another document?

ANSWER: The establishment of CIA was based upon a plan submitted by the late Major General William A. Donovan to former President Harry S. Truman.

15. QUESTION: Who are some of your close friends in Washington and elsewhere. Ruth Draper and the British mystery author E. M. Fleming have been mentioned as among the closest. What was the basis of your friendship with them, and how did you come to know them.

16. QUESTION: Who are your favorite authors and what is your favorite field of reading. Which are your favorite books. Are you still an active tennis player, and do you practice any hobbies.

17. QUESTION: Do you contemplate retiring within the near future. If so, who would you recommend as your successor.

ANSWER: Questions 15, 16, and 17 are of a highly personal nature and on these points I would only add that my friends and reading habits are my own affair and I prefer not to go into these matters. I am still an active tennis player, a mediocre golfer and an avid fisherman.

I am still in good health and spirits and I have not given thought to the question of retiring. If and when I do so, the President, by and with the consent of the Congress, will select my successor.

Thank you for your letter of 2 September 1960, regarding the letter in the Chicago newspaper by one Bob Berlin, and your offer to be of assistance in view of the visit of a number of American veteran leaders to Russia.

Your offer is indeed appreciated. However, since the publicity on this matter is subsiding, I have decided not to revive it by engaging in a newspaper controversy.

Dear Mr. Grauman:

Mr. Dulles has asked me to thank you very much for your letter of 7 September advising that your company contemplates a television series on espionage and counter-espionage, fictitious in nature, but with an authentic flavor based on some O.S.S. experiences of World War II.

While the Central Intelligence Agency is the custodian of some of the O.S.S. files, those in our possession are classified and are not now available for public use. There have been many requests similar to yours in the past and regretfully in each instance we have had to reply in the negative.

Thank you, however, for bringing this matter to our attention.

MEMORANDUM FOR THE DIRECTOR

1. This memorandum recommends action in Paragraph 5.
2. David Gelman, of the NEW YORK POST, who for some months has been gathering data for a CIA series, has submitted 17 questions for you to answer. I do not believe you should answer any of them.
3. I have discussed CIA with him previously and believe that a letter such as the attached, from me, is all we should give to him. Gelman is one of the authors of the anti-FBI series in the POST.
4. Question 15 as to Ruth Draper and you and Fleming is a very personal question that I doubt you would want to answer. His question number 10 indicates to me one of the attacks he will make on intelligence; that is, that it is immoral.
5. Recommendation: That you approve a reply similar to the attached draft.
